**Subject:** Passaic CAG

You may or may not know that there is a Passaic River Community Advisory Group (CAG) that has been meeting for years now. We have kept the CAG updated on progress on all aspects of Diamond Alkali (focusing on Lower Passaic River, not Newark Bay so much) and the CAG has provided feedback on various components of the Tierra Removal, RM 10.9 Removal and lower 8.3 mile FFS/Proposed Plan.

The next CAG meeting will be on November 10 at 6PM, in Newark, NJ. Not sure if you're available, but it might be a good opportunity to meet some of the key community/environmental group representatives.

I will be giving a brief update about the RD AOC and expect to field lots of questions of an enforcement nature. I would prefer to be the one to answer the questions – I will try not to put you on the spot for anything. It can be a little difficult to predict what people will ask, though.
